Special Board Meeting
April 29, 2020 at 10:00 a.m.
Minutes

The Library Board of Trustees had a special meeting on April 29, 2020 at 10:00 a.m. Scott Ziller and Lindsey Carlson joined via Zoom. Members present were Pat Wilson, Jean McKay, Mary Lane, Bob Leonard, and Harv Sprafka.

Item on the agenda was the re-opening of the building during the pandemic following Governor Kim Reynolds' proclamation on Monday allowing establishments in 77 counties to reopen on a limited basis with public health measures in place. Marion County is one of the counties that can open more places. A library may reopen provided it limits the number of patrons present in the building to 50% of the maximum legal occupancy and must implement reasonable measures to ensure social distancing of employees and patrons, as well as increased hygiene practices.

The board and staff discussed the gradual re-opening of the building keeping in mind the safety of staff and the patrons. The State Library had some guidelines and things to consider before libraries could open. The board set a tentative date of June 1, but wanted to meet again to address some of the concerns. A plan will be released in the coming week.

Under Unfinished Business, the Board reviewed and approved some policies to meet the standards set by the State Library for accreditation. Jean McKay moved, seconded by Mary Lane to approve the by-laws. Motion passed. Harv Sprafka moved, seconded by Bob Leonard to approve the personnel policy. Motion passed. Mary Lane moved, seconded by Jean McKay to approve the collection development policy. Motion passed. Mary Lane moved, seconded by Harv Sprafka to approve the computer and Internet use policy. Motion passed.

The director of the Chamber had requested a waiver from paying rent in May. Scott Ziller moved, seconded by Bob Leonard to allow a waiver on May rent.

There being no further business, the meeting was adjourned. The next regular meeting will be held Wednesday, May 20, 2020 at 8:15 a.m. at the Knoxville Public Library.

Memorandum

To: City Council
From: Bill Mettee, Planning and Zoning Administrator
Date: June 10, 2020
Subject: Memo on Commercial Design Guidelines

City Council Members:

Currently, the City has no design guidelines for commercial or residential structures. While the newer commercial buildings have done a good job incorporating designs and materials into their buildings, it might be helpful to have something coded.

The City of Oskaloosa adopted their commercial design guidelines last year and while they're not *too* stringent, they do set a standard for minimum guidelines when building new structures – something we can bring to Knoxville.

Metal-sided pole barn structures have their place, but it seems to be too common a proposal here in the City limits without some type of architectural design or material to spruce it up. The attached was some what Oskaloosa adopted with some changes that were discussed with P&Z and to reflect Knoxville.

We don't get many applications for new commercial structures, or even remodels to existing buildings, but having some code on hand should prove helpful for existing business owners and potential new business owners coming to Knoxville.

These are simple changes to the Intent sections of each residential district. The previous language was mostly the same among all districts, less a handful of words. In the grand scheme of things, nothing will change, all the allowable uses will continue to be allowed and not permitted uses will continue that way as well.

Memorandum

To: City Council
From: Bill Mettee, Planning and Zoning Administrator
Date: June 10, 2020
Subject: Amendment Relating to Camping

City Council Members:

As we inch closer to the 2020 racing season and Knoxville Nationals, my office has seen its usual uptick in calls about camping/camping hookups throughout the City. In fact, five in the last two months has triggered internal discussion regarding the City's position and code regulations on camping within City limits.

As City Officials, we notice the progress being made and the momentum shifting to so many good things in the Community – hospital and Library expansions, new Middle School and upgrades to existing facilities, shift to solar energy, new homes and most importantly local control of the Veterans Affairs Campus.

With these great things happening, the City is of the opinion that we need to take a harder and closer look at regulations governing camping and camping hookups. Knoxville Nationals is a different animal than many other racing communities such as Oskaloosa, Newton and Brandon, South Dakota. I've spoken with officials from all three communities who stated that camping is not a permitted use within their City limits. While we permit two weeks of loose freedom during the Nationals, there are some things that we can do to curb the constant influx of folks looking to make quick money and adding camping hookups all over town.

The City is proposing three options/solutions:

1. Remove camping as a Special Use from the C-2 General Commercial District. It's currently not a permitted use in residential or industrial districts.
2. Move the camping regulations to an allowable use in any Agricultural zoning district and up the acreage required to a minimum of five acres.
3. Deny all electrical permits for any new camping hookups unless they meet the proposed Agricultural district standards.

I mentioned four instances where I've been approached about new camping locations. They are the following:

1. 406 N Kent – Owned by Logan Van Zante - Zoned C-1 Residential-Commercial. Proposed roughly six new hookups.
2. 204 N Roche – Family Video – zoned C-2 General Commercial. Proposed 4-6 hookups with capabilities for 6-12 hookups.
3. 601 N Sherman – Co-Op – Zoned M-1 Light Industrial. Proposed 60-100 new camping spaces plus hookups during the first year with capabilities of 150-200 afterwards.
4. 1214 W Jackson – Owned by the Sprint Car Hall of Fame – Zoned C-2 General Commercial - previous owner proposed lot split subdivision of 0.80 acres to buy back in order to store and park campers with hookups.
5. 1413 N Lincoln – Owned by AJ Mottet – Zoned R-1 Single-Family Residential – Insider information that the owner wants to put dozens of electrical hookups on the lot. I'm guessing, but probably 100+ could fit. In an ideal world, that lot could be subdivided for two new single-family homes

At some point, the City needs to take a tougher stance on this. It's only gotten worse in my four years here and will continue to worsen. The time is now to revisit this problem.

Subject: Work Session Relating to Rental Inspections

City Council Members:

Rental Inspections in the City of Knoxville is an issue that we've been considering for some time – City Council has previously given staff the direction to move forward in adopting this policy.

The City of Knoxville plans to mirror pretty closely the regulations and codes of the City of Oskaloosa, as they've previously done all the leg work and have been working on this for several years. We've been working closely with their staff, as well as the inspectors that they use – not City staff – to get a better understanding of the processes.

The attached code comes from Oskaloosa with the necessary edits to reflect Knoxville and the attached summary sheet speaks to the benefits of having the Rental Inspection Program in place.

At a work session at Planning and Zoning Commission on March 10, 2020, Jason Van Ausdall spoke about his rental inspection company and the Commission recommended moving forward with rental inspection code and processes necessary.

Rental Housing Inspection Program

Summary and Purpose:

In an effort to improve the housing quality in Knoxville and to improve the appearance of the community through better maintained properties, the City of Knoxville is working toward a Rental Housing Inspection Program. Through a systematic inspection of rental properties, this program is designed to ensure that Knoxville residents have safe and sanitary rental housing, and to provide a process by which problem properties can be assessed for code violations.

Need:

This program will set up a process to enforce some basic minimum standards to which landlords must adhere if they want to conduct business within Knoxville and will address the “worst of the worst” of rental properties. Problem rental properties can create nuisances for the neighborhood and can depress home values. Poorly maintained rental properties have created unsafe conditions and have led to dangerous fires that have destroyed homes. This is a proactive approach to addressing problems, rather than current reactive approach.

Benefits:

- It creates a level playing field.
Good landlords that maintain their properties can have a difficult time competing with landlords who do not reinvest and allow their properties to deteriorate.
- It protects property values.
Dilapidated properties can drag down sale prices or rental rates throughout a neighborhood.
- It can attract a better pool of renters and push out the worst landlords.
Word will get out that Knoxville wants to be a place where responsible tenants and quality landlords are wanted.
- It can save taxpayers money.
If rental properties are systematically inspected, there will likely be fewer complaints about blighted and nuisance properties, which will lead to less staff time and fewer court costs.

Registration and Inspection Process:

- All rental housing units within the City of Knoxville will...
 - ...need to be registered in order to operate within the city.
 - ...need to pass an inspection every three (3) years.
 - ...be evaluated for compliance with existing city code Chapters 4, 8, and 9.
 - ...have the opportunity to be re-inspected if issues are identified in the initial inspection.
- Registration is proposed to cost \$60 per building + \$15 per unit annually.
- An inspection criteria checklist will be given to landlords so they know items that will be inspected.
- The program will include a formal process to address tenant complaints.
- Inspection and program management will be the responsibility of a dedicated city staff person.

Some of the key building components that will be inspected to ensure they are safe and workable, include:

- Exterior
 - Foundation, roof, and chimney;
 - Paint, siding, and windows;
 - Steps, balconies, and railings; and
 - Accessory structures.
- Interior
 - Smoke and carbon monoxide detectors;
 - Floors, walls, and ceilings;
 - Plumbing;
 - Electrical and mechanical; and
 - Doors, locks, and emergency exits.

The inspection will ensure that rental properties do not have:

- Rodent or insect infestations;
- Roof or plumbing leaks;
- Dangerous fire hazards;
- Serious structural issues; and
- Accumulated junk or unmaintained yards.

Timeline:

The timeline is subject to Knoxville City Council’s decisions. A conceptual timeline is as follows:

- Work Session with Knoxville Planning & Zoning Commission on March 10, 2020.
- Work Session with Knoxville City Council on June 15, 2020.
- All properties must be registered by TBD.
- Scheduling inspections begins by TBD.
- All rental properties in Knoxville have been inspected at least once by TBD
